Summary

Dynamic Full-stack Developer with expertise in JavaScript, HTML/CSS, Java, and MySQL. Proven track record in developing responsive front-end interfaces and robust back-end services using frameworks like Spring Boot and React.js. Strong project management skills, adept at collaborating with teams and meeting deadlines. Certified in React.js and JavaScript, committed to continuous learning.

EXPERIENCE

Full-stack developer Intern

July. 2023 – present

Kodnest

Bangalore, Karnataka

- Utilized HTML5, CSS3, and JavaScript to develop responsive front-end user interfaces, ensuring seamless experiences across various devices.
- Implemented back-end services and APIs using technologies like Spring, Spring Boot, Hibernate, and MySQL, optimizing system functionality and performance.
- Managed project dependencies and build processes efficiently using Maven, while also integrating JDBC for database connectivity, contributing to a robust development environment.

Frontend Developer Intern

Feb. 2023 – May. 2023

Engineering Innovations Research LAB Pvt. Ltd.

Jabalpur, (MP)

- Designed and developed visually appealing static websites using HTML, CSS, and Bootstrap, focusing on creating intuitive user interfaces and engaging user experiences.
- Executed over 15 static website projects during the internship, including tribute pages, forms, and tables, showcasing proficiency in HTML, CSS, and Bootstrap while adhering to project requirements and design specifications.
- Collaborated with cross-functional teams to gather requirements and translate design mockups into pixel-perfect web pages, demonstrating strong attention to detail and adherence to project timelines.

PROJECTS

E-ShopifyPlus

- Led development of a React.js and Spring Boot-powered E-commerce platform enabling seamless user shopping experiences, featuring intuitive product browsing, cart management, and secure payments.
- Designed and implemented an admin panel with dynamic functionalities including revenue tracking, inventory management, and performance monitoring, enhancing operational efficiency and decision-making.
- Integrated user-centric features such as order summaries, delivery tracking, and product feedback mechanisms, optimizing customer engagement and loyalty while prioritizing continuous platform improvement.

SoundSync

- Built a Spring Boot-powered music application with MySQL for user data, track details, and playlists. Integrated Spring Security for user registration, authentication, and secure music file storage.
- Developed user-friendly features like playlist management and personalized recommendations, ensuring smooth user experiences and data security.
- Designed an intuitive web platform resembling popular music services, optimizing music file upload and storage for seamless playback.

TECHNICAL SKILLS

Skill: JavaScript, HTML/CSS, Java, MySQL, Hibernate, Maven, SpringBoot, ReactJs, Bootstrap

Version Control System and IDE: Git, VsCode, Eclipse, Spring Tool Suit

EDUCATION

Shri Ram Institute of Technology

Jabalpur, (M.P)

Masters of Computer Application

2021 – 2023

St. Aloysius college

Jabalpur, (M.P)

Bachelors in Science (Electronics)

2016 – 2019

CERTIFICATIONS

The Ultimate React Course 2024: React, Redux & More

Jan. 2023 – Present

Jonas Schmedtmann, udemy

- React.js Proficiency: Certified in React.js development, adept at building interactive user interfaces and single-page applications using React components and state management.
- Advanced React Skills: Completed an intensive React.js course encompassing advanced concepts like component lifecycle methods, state management with Redux, and React Router, enhancing proficiency in developing scalable and maintainable web applications.

The Complete JavaScript Course: From Zero to Expert!

Sept. 2023 – Nov. 2022

Jonas Schmedtmann, udemy

- JavaScript Proficiency: Certified in JavaScript programming, proficient in essential concepts such as variables, functions, and DOM manipulation, with practical experience in developing interactive web applications.
- Expanded Skill Set: Completed a comprehensive JavaScript course covering advanced topics like asynchronous programming and ES6 features, enhancing ability to develop dynamic and responsive web applications.
